

The City of New Richmond, the School District of New Richmond, St. Croix County Emergency Management & Health Department, Westfields Hospital & Clinic, St. Mary School, local first responders and local stakeholders held a meeting yesterday afternoon pertaining to the Novel Coronavirus 2019 (COVID-19). Our focus was on preparedness, communication, planning and collaboration.

As united stakeholders we will be following these procedures as well as suggested proactive care responses from local emergency management and medical experts should this virus spread into our area. We invite you to check these links for specific questions.

In the event of a needed community response, the City will be utilizing its Alert New Richmond system as a way of communicating with the public. We invite you to sign up for this alert system by clicking on the following link: <https://www.smart911.com/smart911/registration/registrationLanding.action?cdnExternalPath=>

In the interim, it is critical people be mindful about washing hands, covering mouths when coughing and sneezing, staying home when feeling sick and following the proactive care plans as outlined by the CDC and medical professionals. Please contact your local medical professional with specific questions and/or medical concerns.
